Re: PM Release, Wyssmont Dryer, September 1, 2015

Dear Mr. Becker,

Please find enclosed the report on the September 1, 2015 NOx release.

1. The release occurred at the BASF Elyria Plant, 120 Pine Street, Elyria, OH.
2. The duration of the release was approximately 15 minutes. The release began at approximately 0900 and ended at 0915.
3. The PM discharged out of (P018).
4. It is calculated that 1 pound of PM was released into the air. If additional information on the amount of material released becomes available, it will be forwarded to your office.
5. The release was the result of several bags in the dust collector being installed incorrectly and the Sly scrubber sump being clogged with material.
6. To end the release site personnel shut down the Wyssmont Dryer and fixed the dust collector and scrubber.
7. No evacuation of the surrounding community was necessary.

If you have any questions or require any further information, please do not hesitate to call me at 440-329-2568.

Sincerely,

A handwritten signature in black ink, appearing to read "Timothy Anglin".
